

TABLE OF CONTENTS

ACKNOWLEDGEMENTS	1
ABSTRACT	3
I. INTRODUCTION.....	10
II. ESSAY 1. ENERGY POVERTY MEASURES AND THE IDENTIFICATION OF THE ENERGY POOR IN CHILE THROUGH A MULTIDIMENSIONAL APPROACH	14
1.1 Introduction and Background.....	14
1.2 Theoretical Discussion on a Classification for the Definitions of Energy Poverty.....	18
1.2.1 First Order Energy Poverty Definitions and Measures	18
1.2.2 Second Order Energy Poverty Definition and Measures	19
1.2.3 Association between Welfare Indicators.....	21
1.2.4 Energy Poverty in Chile	22
1.3 Methodology	23
1.3.1 Data	23
1.3.2 The Capability Approach and the Alkire-Foster Method.....	24
1.3.3 Perception-based Multidimensional Energy Poverty Index (PMEPI).....	26
1.3.4 Estimation of TPRI Energy Poverty in the ENE 2017	30
1.3.5 Redundancy Between Energy Poverty Measures.....	30
1.4 Results	32
1.4.1 Energy Poverty in Chile	32
1.4.2 Spatial Patterns of Energy Poverty in Chile.....	35
1.4.3 Energy Poverty in Chile by Population Subgroups.....	36
1.4.4 Explaining the PMEPI Differences Across Population Subgroups.....	38
1.4.5 Overlap Between Energy Poverty Measures and their Determinants	39
1.5 Conclusions and Policy Implications	40
III. ESSAY 2. THE IMPACTS OF MORE EFFICIENT BIOMASS HEATING TECHNOLOGIES: EVIDENCE FROM URBAN HOUSEHOLDS IN CHILE	44
2.1 Introduction.....	44
2.2 Key Literature and the Study Area.....	47
2.3 Research Design.....	50
2.3.1 Introduction to Research Goals and Implementation of the Stove Program	50
2.3.2 Population, Sampling and Assignment to Treatment.....	52
2.3.3 The Intervention	54
2.4 Empirical Strategy.....	55

2.4.1 Effects on Indoor Air Quality and Temperature.....	55
2.4.2 Effects on the Variance of Indoor Temperature and Fuel Consumption.....	56
2.5 Results	57
2.5.1 Descriptive Statistics	57
2.5.2 Effects of Stove Replacement Program on Indoor Air Quality and Temperature.....	60
2.5.3 Effects on Variance in Indoor Temperature and Total Fuel Cost	62
2.5.4 Distributional Effects of the Improved Stove Program	63
2.5.5 Cost-Effectiveness of the Stove Program.....	68
2.6 Conclusions and Policy Implications	69
IV. ESSAY 3. WHAT DRIVES MONITORING, ENFORCEMENT AND ENVIRONMENTAL COMPLIANCE? AN EMPIRICAL INVESTIGATION IN CHILE.....	72
3.1 Introduction	72
3.2 Key Literature on Monitoring and SMA's Monitoring and Enforcement	75
3.2.1 Key Aspects of the Relation Between the Enforcement Actions and Regulated Firms' Compliance	75
3.3. Methodology and Data	79
3.3.1 Specification for Inspections and Compliance: A Simultaneous Estimation	80
3.3.2 Sanctioning Procedure and the Alternative to Present a Compliance Program	83
3.3.3 Imposition of Sanctions: Level of Fines and Payment	85
3.3.4 Data Set	88
3.4 Results	93
3.4.1 Results for Simultaneous Estimation of Inspections and Compliance	93
3.4.2 Spillover Effect on Compliance	97
3.4.3 Drivers of Presenting a Compliance Program	99
3.4.4 Results for Estimation of Fines	103
3.4.5 Results for Drivers of Payment and Delay in Payment	106
3.5 Discussions and Conclusions	109
V. CONCLUSIONS	113
APPENDICES.....	116
Appendices 1	116
Appendix 1.1. Censored Headcount Ratios (PMEPI) by Macrozones Estimation	116
Appendix 1.2. Censored Headcount Ratios (PMEPI) by Population Subgroups	117
Appendix 1.3. Redundancy R^0 Measure between PMEPI-H and TPRI, Chile, 2017	118
Appendix 1.4. Survey Probit Estimation for Redundancy Measures	119

Appendices 2.....	120
Appendix 2.1. Number of Stove Replacements Carried Out in Chile, 2011-2019	120
Appendix 2.2. Schematic of the Stove Replacement Program Year 2020	121
Appendix 2.3. Pellet Stove Offered and Salamander Stove	122
Appendix 2.4. Firewood Stove Before the Replacement and Pellet Stove Obtained.....	123
Appendix 2.5. House Chosen for Stove Replacement Program in Talca.....	124
Appendix 2.6. Selection criteria and points by criterion for 2019 and 2020.....	125
Appendix 2.7. Participants in the Study Distributed Across Talca	127
Appendix 2.8. Cumulative Number Households Visited During the Fieldwork.....	128
Appendix 2.9. Number Households Visited per Day During the Fieldwork	129
Appendix 2.10. Prototype of Air Quality Sensors Assembled for this Study	130
Appendix 2.11. Comparison Between SDS11 PM2.5 Sensor and Reference Station.....	131
Appendix 2.12. Stoves Use Monitors.....	132
Appendix 2.13. Electronic Devices Used in Fieldwork.	133
Appendix 2.14. Collecting Information from Electronic Devices	134
Appendix 2.15. Visiting Households Using Personal Protection Against Covid-19	135
Appendix 2.16. Fixed-Effects Model Control Variable Definitions and Expected Signs.....	136
Appendix 2.17. Cross Section Model Control Variable Definitions and Expected Signs	137
Appendix 2.18. Balance and Statistics for Households and Dwelling Characteristics	138
Appendix 2.19. Income Distribution for Sample and Subsamples	139
Appendix 2.20. Comparison of Income Distribution Subsamples	140
Appendix 2.21. Energy Poverty Analysis	141
Appendix 2.22. Households Experiencing Energy Poverty	143
Appendix 2.23. Income Category as Proxy for the Baseline Stove Type	144
Appendix 2.24. Mundlak's Estimates Indoor Air Pollution and Indoor Temperature	145
Appendix 2.25. OLS Estimates for Indoor Air Pollution and Indoor Temperature	146
Appendix 2.26. Mundlak's Estimates for Households Facing Energy Poverty	147
Appendix 2.27. Mundlak's Estimates by Income Distribution	148
Appendix 2.28. Variance of Indoor Temperature by Income Distribution	149
Appendix 2.29. Fixed Effects Estimation for Households Facing Energy Poverty	150
Appendix 2.30. Variance Indoor Temperature for Households Facing Energy Poverty	151
Appendix 2.31. Cost of Fuel for Households Facing Energy Poverty	152
Appendix 2.32. Estimates for Selected Households by Propensity Score Matching	153

Appendices 3.....	154
Appendix 3.1. Different Networks Connecting Facilities with Same Owner	154
Appendix 3.2. Cluster (N465) Belonging to Fishing-Aquaculture Sector	155
Appendix 3.3. Cluster (N56) Belonging to Mining Sector	156
Appendix 3.4. Number of Facilities by Size from 2013 to 2019	157
Appendix 3.5. Number of Facilities by Macrozone from 2013 to 2019	158
Appendix 3.6. Number of Facilities Inspected per Year	159
Appendix 3.7. Number of Inspectors and Workers at SMA from 2013 to 2019.....	160
Appendix 3.8. Budget SMA in Millions of Nominal Pesos (Ch\$).....	161
Appendix 3.9. Average Marginal Effects for Inspection and Comply	162
Appendix 3.10. Spillover Average Marginal Effect on Compliance	163
Appendix 3.11. Comparison Among Coefficient Estimates with Spillover Effects	164
Appendix 3.12. Average Marginal Effects for Compliance Program	165
Appendix 3.13. Estimates and Average Marginal Effects for Payment of Fines	166
BIBLIOGRAPHY	167

LIST OF TABLES

Table 1-1. Deprivation Indicators, Cutoffs and Weights of PMEPI for Chile 2017	29
Table 1-2. Two-way Contingency Table for TPRI and PMEPI Energy Poverty.....	31
Table 1-3. Indices and Dimensional Contribution by Country Level and Macrozones.....	34
Table 2-1. Measurements across Treatment and Control sub-samples	58
Table 2-2. Fixed Effects Models for Indoor Air Pollution and Indoor Temperature	61
Table 2-3. Cross-Sectional Estimates for the Variance of Indoor Temperature and Fuel Cost	63
Table 2-4. Fixed Effects Models for Indoor Air Pollution and Indoor Temperature by Income	66
Table 2-5. Cross-Sectional Estimates for Fuel Cost by Income Level.....	67
Table 3-1. Number of Facilities and Proportion that are Inspected by Sector per Year	90
Table 3-2. Inspected Facilities and Compliance Outcomes by Sector During 2013-2019.....	91
Table 3-3. From Non-Compliance to Facilities Fined During 2013-2019.....	92
Table 3-4. Coefficient Estimates for the Joint Estimation of Inspection and Compliance	96
Table 3-5. Spillover Variable Coefficient Estimates of Fines on Comply	98
Table 3-6. Coefficient Estimates for Probability of submitting a Compliance Program	100
Table 3-7. Determinants of the Compliance Program Cost (logCost)	102
Table 3-8. Coefficient Estimates for the Size of Fines.....	105
Table 3-9. Coefficient Estimates and Average Marginal Effects for Payment of Fines	107
Table 3-10. Coefficient Estimates Payment Delay of Fines.....	108

LIST OF FIGURES

Figure 1-1. Dimensions and Weights selected for PMEPI.....	28
Figure 1-2. Energy and Poverty Indicators, Chile, 2017.....	36
Figure 1-3. Energy Poverty Index Chile, 2017	37
Figure 2-1. Air Quality, Fuel Cost, and Comfort	60
Figure 3-1. Monitoring and Enforcement Process of Environmental Regulations in Chile.....	78
Figure 3-2. Number of Facilities by Sector per Year, from 2013 to 2019	89
